

# GROW A DELICIOUS & SUSTAINABLE OUTBACK LIFE

## *an introduction to permaculture*

**FOOD** bring us all together; it is a common need and it can be incredibly delicious and also stressful! If you want to get back in touch with your inner hunter/gatherer, learn the skills to create your own food heaven, re-connect with why you are in food production, or inspire your kids in the garden; then join other like minds in a successful outback veggie patch and learn from one of Australia's leading Permaculture experts - Nick Huggins! Over two days we will learn and apply the basic principles of why, how, where, when and what you can do to create a sustainable, delicious environment, reconnect to your food source and create abundance in all areas of your life...**YES, even in the outback of Australia!**
